- Track user Policies and orders through statistics
- Add another admin

FUNCTIONALITIES

- Secure user registration and login.
- Classified policy browsing.
- Cart functionality: add, view, remove policies.
- Policy checkout and generation.
- Admin: Create, edit, delete policies.
- customer: edit personal details
- Spinners during transitions for better UX.

Output

Home Page

The screenshot displays the homepage of the FortiSure website. At the top, there's a navigation bar with links for "Why Us", "Process", "Policies", and "Insights". A "Sign In" button is also present. The main content area features a large blue banner with a shield icon and the text "Professional Insurance Solutions". Below this, a sub-section highlights "Enterprise-Grade Security", "Dedicated Support Team", and "Competitive Pricing". To the right, a "How It Works" section shows four steps: "Create Account", "Explore Policies", "Add Policy", and "Get Protected". A "Start Your Journey" button is located at the bottom right of this section.

CONCLUSION

- The Insurance Policy Management System provides a robust and scalable platform for efficiently handling insurance operations.
- With secure authentication, categorized policy browsing, and seamless backend operations, it aims to bridge the gap between insurers and customers through a modern web solution.

THANK YOU
